

QUALITY AND ENVIRONMENTAL POLICY

The management of ESCRIBANO MECHANICAL & ENGINEERING S.L.U., aware of the growing importance of environmental protection and the need to meet the needs and expectations of its customers, has implemented a Quality and Environmental Management System in its organisation, in accordance with the UNE-EN ISO 9001 and UNE-EN ISO 14001 standards, as a tool to promote continuous improvement at all levels.

For this purpose, the management of ESCRIBANO MECHANICAL & ENGINEERING S.L.U. has adopted the following commitments:

- ❖ Provide competitive solutions that meet customer needs and expectations and comply with established requirements, including laws and regulations.
- ❖ Control the processes and the product to prevent the use of counterfeit or suspected parts and their integration into our products.
- ❖ Comply with the legislation applicable to our activities, including technical quality regulations, environmental regulations and other requirements that the organisation voluntarily undertakes with interested parties.
- ❖ Establish a permanent training plan in order to have qualified personnel to carry out its activities, as well as to provide the necessary resources for the proper functioning of the Management System.
- ❖ Periodically set and monitor specific objectives appropriate to the purpose and context of the company in order to support the Strategic Plan.
- ❖ Implement controls on identified risks to prevent processes and the quality and environmental management system from deviating from planned results.
- ❖ Ensure environmental protection by preventing pollution, making efficient use of available natural resources and minimising the generation of waste..
- ❖ Seek continuous improvement in the quality of our services and our environmental performance in order to increasingly influence the satisfaction of our customers' needs and to minimise the environmental impact of our activities.
